

September 20, 2023

Dear Candidate,

Sustainable Saratoga is a not-for-profit organization that promotes sustainable practices and the protection of natural resources through education, advocacy and action, for the benefit of current and future generations in Saratoga Springs.

The upcoming November election offers an opportunity to discuss pressing environmental issues in our area. Our supporters are interested in knowing your plans for addressing the key sustainability issues confronting our community. We are requesting your responses to the questions below by October 4, 2023. Please email your answers back to us (kelsey@sustainablesaratoga.org) in digital form.

As a 501(c)(3) organization, we do not endorse any particular candidate for an elected office. Your responses and those of other candidates will be posted on our website, shared to our social media, and emailed to our members verbatim. We will not provide any comments on the responses.

Thank you in advance for your participation, and please contact me if you have any questions.

Sincerely,

Kelsey Trudell
Executive Director
Sustainable Saratoga

Board of Directors: Anne Ernst, Laura Faulk, Dianna Goodwin (Chair), Sarah Goodwin, Elaine McArdle, Harry Moran, Paul Murphy (Treasurer), Richard Romano (Secretary), David Sayer

4. Saratoga Springs has a long history of tree-lined downtown streets which provide much desired aesthetic value in addition to promoting clean air, clean water, and cooler temperatures. Rate your support for the continued funding of urban tree plantings to expand Saratoga's urban forest.

Comments: 5, urban tree planting is extremely beneficial in the fight against climate change, while providing so many numerous benefits from cleaner air and cooler streets to happier populations. As your County Supervisor I will work to secure funding to bring more trees to our community.

5. In 2016, the then City Council adopted a report of the Downtown Parking Task Force, which called for several steps including an "Office of Downtown Parking Management," a volunteer advisory board, and the selection of a professional parking management firm to design and implement a plan. Rate your support for implementing the recommendations in this report for a downtown parking management plan.

6. Saratoga Springs is known as the "City in the Country." Sustainable Saratoga believes it is critical for the city to codify zoning and planning standards, protect the Greenbelt and open space, and support sustainable growth principles. The city's current zoning ordinance (the UDO) allows development in the Greenbelt that risks urban sprawl. Sustainable Saratoga has supported amendments to the UDO to continue to protect the city's Greenbelt. Rate your support for amending the UDO to limit development and retain rural character in the city's Greenbelt, including the rural gateways into our city.
